

SMARTSUITE 

INTERACTIVE HOTEL TV & WIRELESS SYSTEMS

INCREDIBLE GUEST EXPERIENCE

IPTV AND Wi-Fi+ ALL IN ONE

According to the studies, inefficient Wi-Fi and number of TV channels are the most complained features at hotels among the guests. SmartSuite will ensure high speed internet via Wi-Fi+, while your guests enjoy the best IPTV experience.

On top of that, you will receive a business model, which will bring you extra income with a reasonable cost. We prioritize your revenue by providing solutions with SmartSuite that is customized specially for you based on your needs.

You are special for us, just like your guests

SMARTSUITE

IMPRESSIVE QUALITY BEYOND EXPECTATIONS

SmartSuite, more than TV!

Think about your expectations from a TV, and then multiply it by 10. Because SmartSuite provides the highest quality level seen in hotel smart technologies.

SmartSuite brings many features to you customers' fingertips with its smart remote. These great features include rental video games and movies, internet, room service, greeting guests with their names, city info, concierge, express checkout and many more.

SmartSuite aims to increase your quality of service while strengthening your brand identity. In order to achieve this, SmartSuite screens will be decorated with your brand and chosen photos.

LIMITLESS FULL HD TV CHANNELS

 No one should suffer analog TV with picture noises and low quality in this age. Interactive TV brings limitless high quality digital broadcast with a variety of channels and platforms. This feature especially plays an important role in making decision. We convert all your TVs into interactive ones. You need channels with different languages? SmartSuite has it all!

With the Pay TV module, your hotel revenue increases while your guests watch any movie they desire, whenever they want.

SmartSuite provides thousands of HD broadcast with limitless channels and this system is also compatible with 4K. This way, you will not need to spend a dime when you will be renewing your TVs in the future.

Wifi Plus No more WiFi coverage problem!

HIGH INTERNET SPEED WITH Wi-Fi+

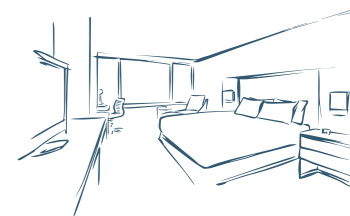

Today, the quality of internet access is our first priority. We do not wish to go stay anywhere with bad internet connection.

We create a hotspot access point in each hotel room with Smart IPTV system. This way, your hotel's wireless internet infrastructure is stronger strengthens compared to regular wireless systems.

SmartSuite lowers your expenses by combining Wi-Fi and iTV while increasing your internet and TV performance.

You can also charge this feature separately if you would like.

itv

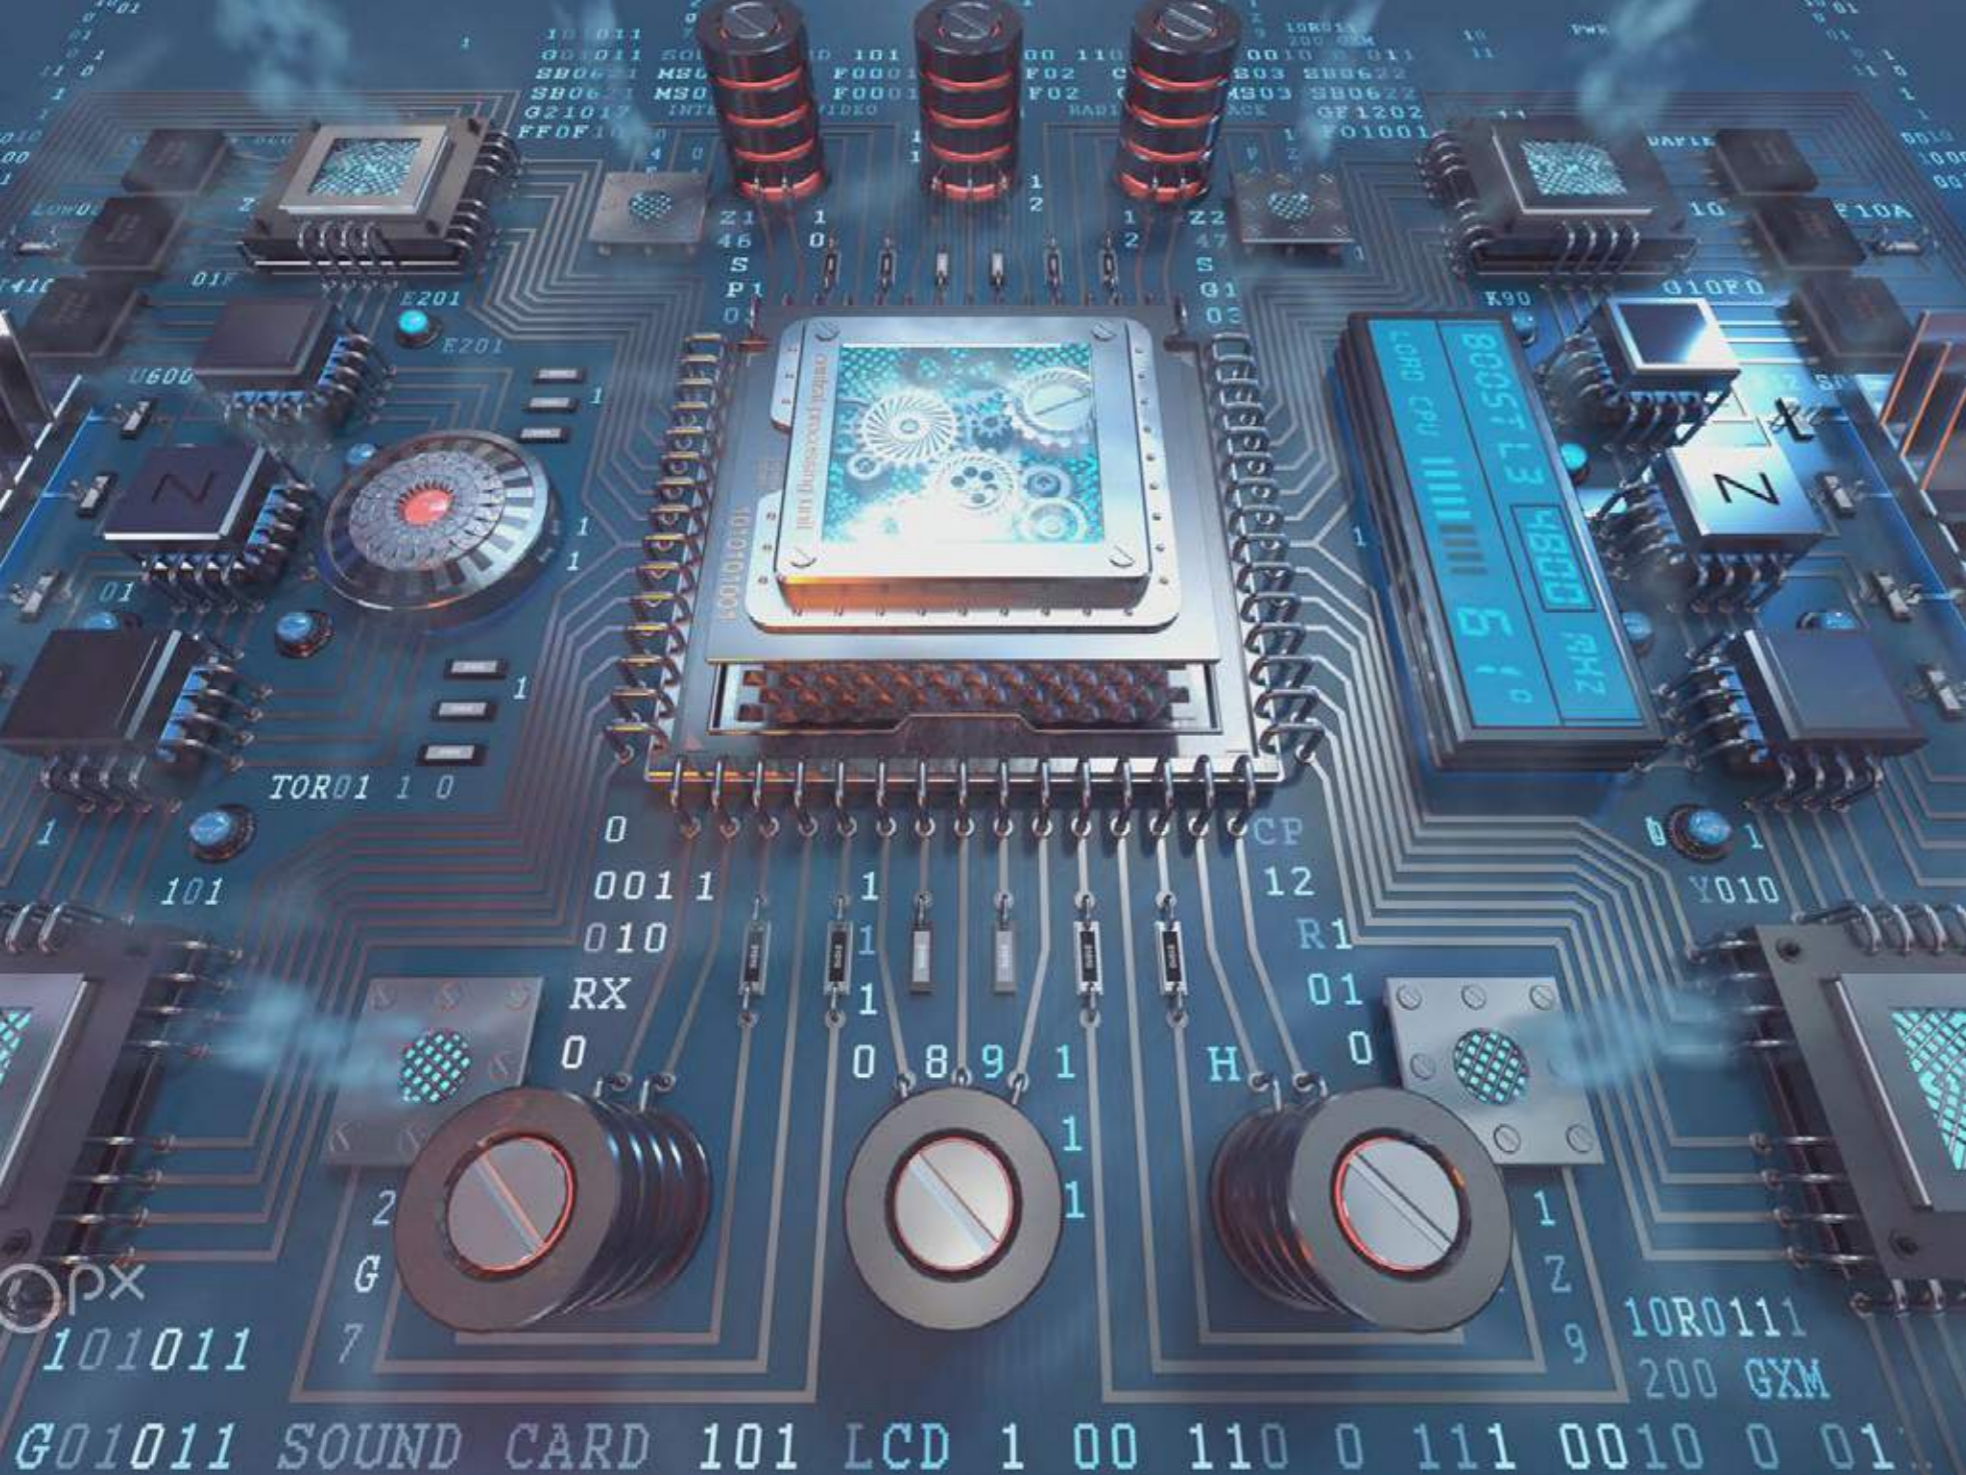

FLEXIBILITY AND COMPATIBILITY

This system design is specialized for you. In order to convert the present TVs into SmartSuite easily,

return of investment
in a short period of time

INCREASE REVENUE

SmartSuite not only strengthens your corporate identity and increases guest satisfaction; but also brings you a new revenue stream that will pay off its investment.

Here is an exemplary revenue table:

Room service orders done via interactive screen brings 5% increase,	30€
Saving from channel list, room service, hotel etc. booklets	10€
Extra revenue from Pay TV (online tv shows, movies etc.)	60€
Interactive TV revenue (Mobile Apps, Games, fast Wi-Fi, internet browser)	70€
Sales of souvenir and items that guests usually lose	80€

Total

250€ revenue per room is equal to **62.500€** a year

(Calculations are done for 250 rooms)

WORLDWIDE SERVICE

SmartSuite is always within reach with its broad service network. We are always one phone call away from you with international brand awareness and high standardization. You can reach our online technical service and aid system 24/7.

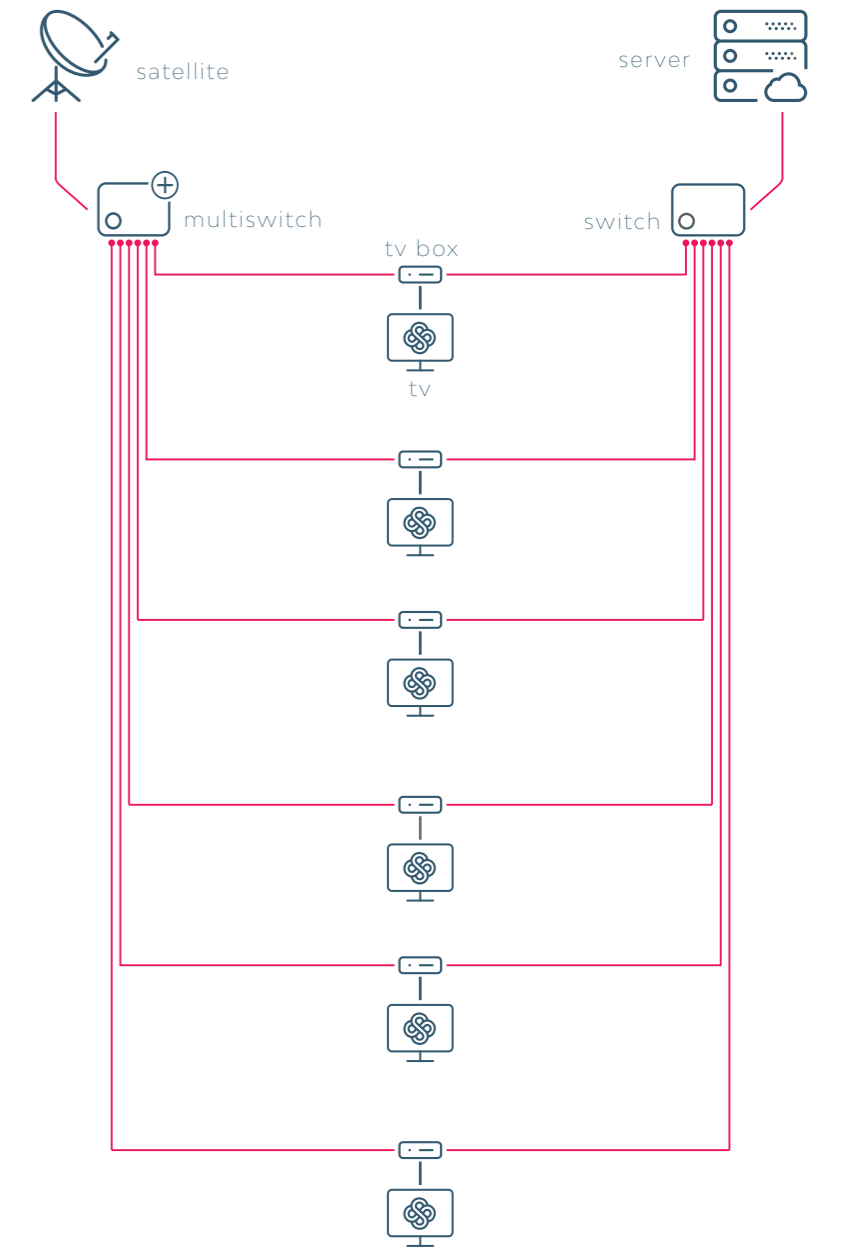

HOW IT WORKS

 Our system brings digital TV broadcast to your room with standard satellite or terrestrial infrastructure.

Each STB (Set-Top-Box) has internal HD tuner and is compatible with the hotel's substructure.

There is no need for a host system control room, it can be control from everywhere.
